UniTime
at Faculty of Medicine

Zuzana Müllerová

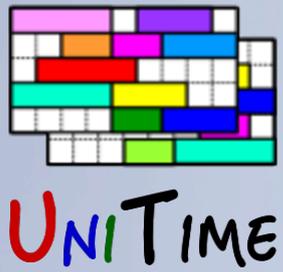

Masaryk University

Masaryk University Brno, Czech Republic

- Since 1919
- 2nd largest university in the Czech Republic
- 38 000 students
- 9 colleges, 200 departments
- An early adopter of UniTime

This presentation is available at www.unitime.org/present/apereo19-casestudy.pdf

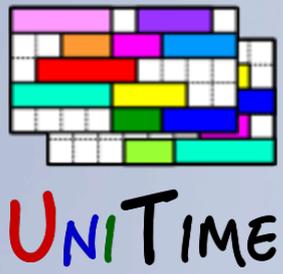

Faculty of Medicine

Faculty of Medicine

- 7th out of 9 faculties at MU to adopt UniTime
- Around 4 000 students
 - General medicine
 - Dentistry
 - Nursing and other undergraduate degrees
- Programs in both Czech and English
- 100th anniversary this year

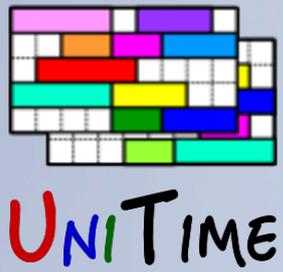

Faculty of Medicine

Types of instructions

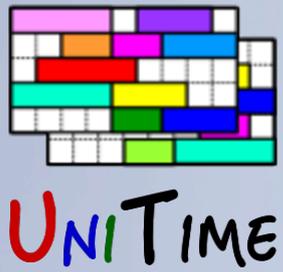

- **Lectures** in shared classrooms in two buildings
- **Labs** in specialized laboratories at various departments in two buildings
- **Practical trainings** in several hospitals

Faculty of Medicine

Timetabling before UniTime

- **Excel tables** for
 - Each year of general medicine or dentistry
 - Each program for undergrads
- Timetabling: minor **manual modifications** of these tables

Timetabling in UniTime

- The process of assigning **times** and **rooms** to **classes**
- Creating a course timetable for **students**
- Respecting various **restrictions** and **preferences**
 - Courses: size, room equipment, structure, ...
 - Instructors: availability, preferred times, ...
 - Students: curricula, pre-registrations, ...
 - Other: number of rooms available and their sizes, ...
- It is a difficult optimization problem

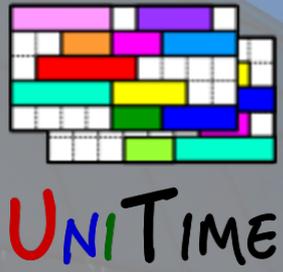

Reasons to adopt UniTime

- All timetabling information in one place
- Significant changes in timetables needed
 - Change of **start times** - not **any time** but **on the hour**

Kamenice 5 A11/228 (24, 30,67)	7:00	8:00	9:00	10:00	11:00	12:00	13:00	14:00	15:00	16:00
Pondělí		CJV aVLLT0121s Sem 37 Základy lékařské terminologie 8:00 - 9:40	CJV aVLLT0121s Sem 32 Základy lékařské terminologie 9:50 - 11:30	CJV aVLLT0121s Sem 30 Základy lékařské terminologie 11:40 - 13:20	CJV aVLLT0121s Sem 34 Základy lékařské terminologie 13:30 - 15:10					
Úterý		CJV aVLCJ0181 Sem 35 Čeština pro cizince I 7:30 - 10:00	CJV aVLLT0121s Sem 31 Základy lékařské terminologie 10:10 - 11:50	CJV VLLT0121c Sem 11 Základy lékařské terminologie 12:10 - 13:50	CJV aVLCJ0181 Sem 37 Čeština pro cizince I 14:10 - 16:40					

Kamenice 5 A16/211 (20, 28,50)	7:00	8:00	9:00	10:00	11:00	12:00	13:00	14:00	15:00	16:00
Pondělí		BiochemÚ VLBC0422c Sem 1 - 01 Biochemie II - cvičení 8:00 - 10:30			BiochemÚ aVLBC0422c Sem 9 - 38 Biochemie II - cvičení 11:00 - 13:30			BiochemÚ VLBC0422c Sem 3 - 03 Biochemie II - cvičení 14:00 - 16:30		
Úterý		BiochemÚ aVLBC0422c Sem 2 - 31 Biochemie II - cvičení 8:00 - 10:30			BiochemÚ VLBC0422c Sem 10 Biochemie II - cvičení 11:00 - 13:30					

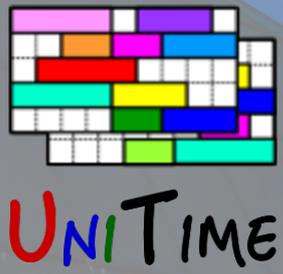

- Expected **increase in** the number of **students**
- Building a **new Simulation Center**

Implementation

Implementation process

- Started in 2018
 1. Import of data for Fall 2017 from the student inf. system
 - Including existing timetable for Fall 2017
 - Weeks of instructions, possible times, rooms, ...
 2. Setup of Fall 2018 based on Fall 2017
 - Without the course timetable
 3. Collecting information from departments and clinics
 - Locations, possible times, ...
 4. Building a course timetable
 5. Collecting feedback, adjusting timetable

Implementation

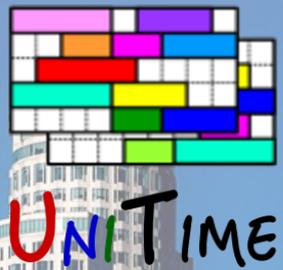

Implementation process - continued

6. Spring 2019

- Similar as Fall 2018
- Data entered centrally

7. Fall 2019

- Still in progress
- Department schedule managers enter data
- Central course timetabling

Challenges

Data

- Rooms and other locations

Název	Kapacita	Dostupnost	Katedry
Pekařská B-5.022 NeuroKI	30		KPO NeuroIK NeurKI

cvičebna I. neurologické kliniky ...

- Possible times for classes (lectures, labs, practicals)

3h od 7:00

from:	7:00	8:00	9:00	10:00	11:00	12:00	13:00	14:00	15:00	16:00	17:00
to:	9:30	10:30	11:30	12:30	13:30	14:30	15:30	16:30	17:30	18:30	19:30
Po	Red	Red	Red	Red	Red	Red	Red	Red	Red	Red	Red
Út	Red	White	White	White	White	Yellow	Yellow	Red	Red	Red	Red
St	Green	Green	White	White	White	Yellow	Yellow	Red	Red	Red	Red
Čt	Red	White	White	White	White	Yellow	Yellow	Red	Red	Red	Red
Pá	Red	Yellow	Yellow	Yellow	Yellow	Yellow	Yellow	Red	Red	Red	Red

- Practical trainings in medicine
 - 4th and 5th year of study in blocks of 1-2 weeks

Challenges

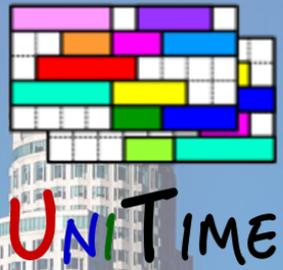

Concept of course timetabling

- “Old” process at Faculty of Medicine
 - Take previous timetable and modify
- UniTime
 - Enter information about possible times and rooms
 - Let UniTime create a new timetable (manual changes possible)
- Misconception
 - Many people expect UniTime to just record the times and rooms they want

Challenges

Conflict-free timetables for students

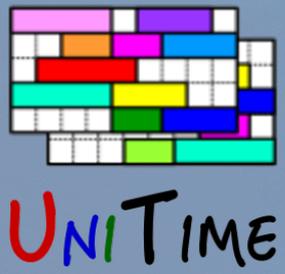

- Students must be able to attend all of their classes
- Current solution
 - Groups of 20 students (15 in foreign language programs)
 - Follow plans of study
- Issues
 - Not all rooms are for 20 or 40 - some are for 15, some for 32, ...
 - Repeating students do not follow the plan of study 100%
- Possible future solution
 - Student scheduling in UniTime
 - = Putting students to classes individually, not in groups of 20

Challenges

Personnel

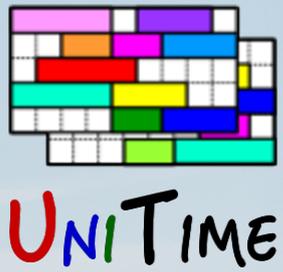

- Before UniTime
 - Coordinators for each year (medicine) or program of study (undergraduate studies)
 - Central management of shared classrooms only
- With UniTime
 - **Central timetabling manager needed**
 - A new person hired
 - Did not know the faculty, but knew UniTime
 - In January 2019 another change
 - The new person did not know the faculty nor UniTime

Demo

Examples in UniTime

Conclusion

UniTime at Faculty of Medicine

- Quite complicated, but doable
- Discussing the implementation of student scheduling in the future
- Another faculty of medicine in the Czech Republic interested
